early creative story tablet

Today is sunny. There are
no clouds in the sky. I like
when it is sunny because
then I can ride my bike. My
bike is red and it has
streamers on the handlebars.

Building Blocks for Writing Success™

- Red line cues students to sit letters on the baseline
- Narrow line width for optimal pencil control

Conforms to McDougal-Littell, Zaner-Bloser and D'Nealian handwriting methods

Adam
name

4-11-2011

Styracosaurus has
horns. Styracosaurus
is a herbivore (this
means that the
animal eats plants)

fossils are breakable.

(Breakable means that
the fossil breaks
easily.) Fossils are
old.

Oryctodromeus
digs holes and tunnels
with front legs and
and strong nose.

Oryctodromeus wakes
up at dusk.

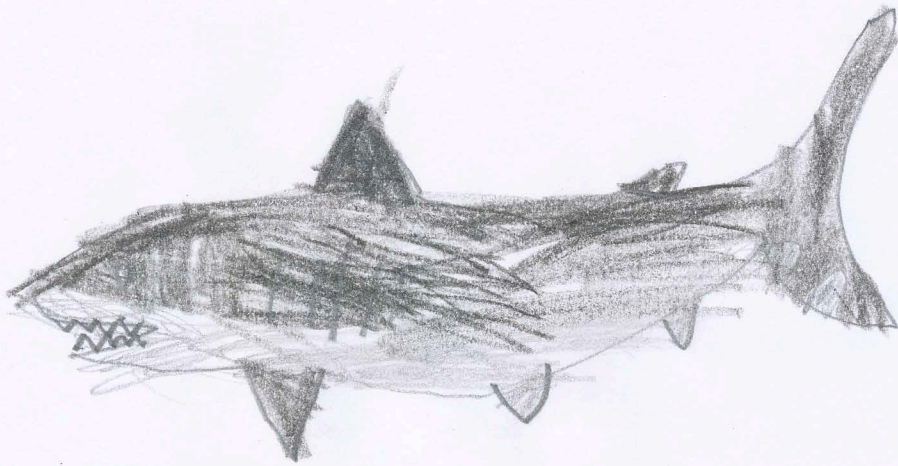

Maiasaura is a
good mother.

Maiasaura eats
plants that
means it is a
herbivore.

Proganochelys lewidi
in the Triassic.

Proganochelys has a
spiky tail.

Cretoxyrhina has a
Shark. Cretoxyrhina
has sharp teeth.

Einiosaurus has
a nose horn.

Einiosaurus has
two big spikes.

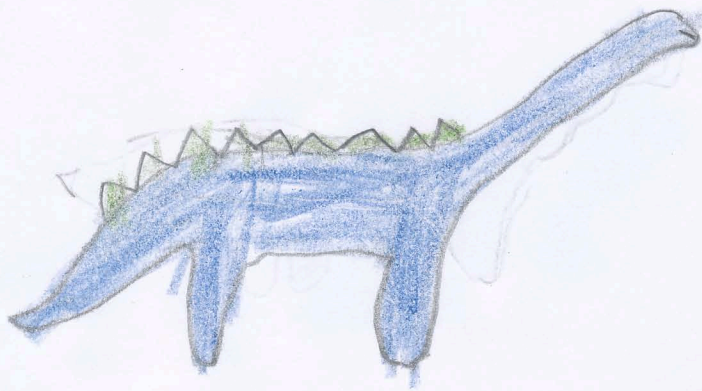

Coelophysis was the first dinosaur.

Coelophysis was very small.

Confuciusornis was
a bird in china.

Confucisornis has
long tail feathers.

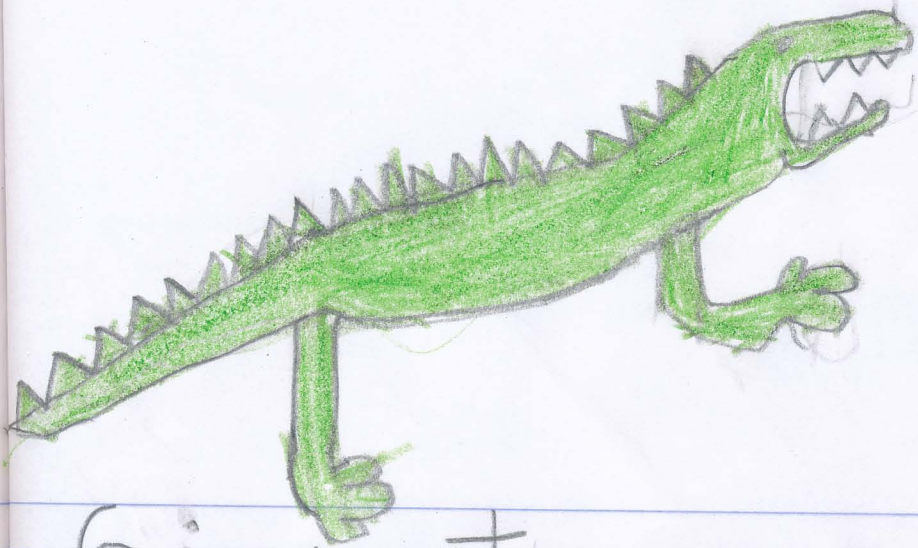

Amargosaurus has
big spines on its
back. Amargosaurus
was on south
america.

Iguanodon has
spiky thumbs and
was the first
dinosaur discovered.

Iguanodon walks on
four legs or two
legs.

Giganotosaurus is
a Theropod.

Giganotosaurus eats
meat.

Therizinosaurus has
3 long claws.

Therizinosaurus has
feathers on its
long arms.

Masiakasaurus
has buck teeth
and was on
Madagascar.

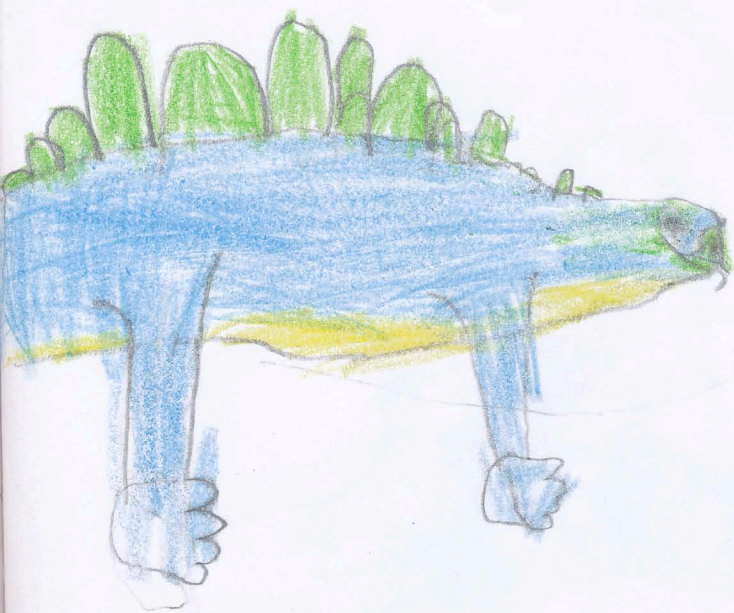

Masiakasaurus was
6 feet long and was
a vicious lizard.

5-3-2011

Daspletosaurus was in
the Tyrannosaur
family and walked
on 2 legs.

Daspletosaurus has tiny
arms with 2 fingers
and was smaller than
Trex.

Stegosaurus had plates on its back to cool off or scare other animals.

Stegosaurus was a herbivore.

Microraptor was very small. Microraptor had 4 wings. Microraptor could not fly.

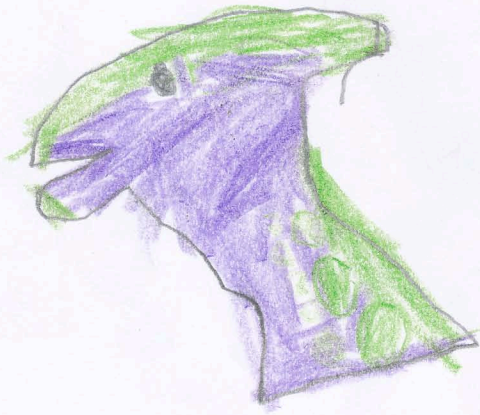

Pteranodon have wings and ate fish.

Pteranodon had a beak and had no teeth. Pteranodon was not a dinosaur and flew with the birds.

Troodon had sharp
teeth. Troodon was a
omnivore. Troodon had
the largest brain.

Parasaurolophus had
a crest on its head.

Parasaurolophus had
a longer crest
than corythosaurus

Parasaurolophus
crest makes hooting
504105

Velosiraptor had
feathers. Velosiraptor
could not fly. Velosiraptor
had a toe claw like
troodon.

Ankylosaurus had bony plates all over.

Ankylosaurus weighed 10,000 pounds.

Ankylosaurus had a tail club.

Tyrannosaurus rex
had a great sense
of smell.

Tyrannosaurus rex
had great eyesight

Tyrannosaurus rex
was a carnivore.

Corythosaurus

had a crest.

Corythosaurus

hoots.

Corythosaurus was

a hadrosaur.

Brachiosaurus had
a long neck.

Brachiosaurus was a
quadruped. Brachiosaurus
was a herbivore.

Ornithomimus was a very fast runner

Ornithomimus bipedal
bipedal which means it walks on 2 legs.

Ornithomimus was a omnivore.
